TITRE	Acrylique
DESCRIPTION	Multi-Bond (cycle peinture) associé au SF 7851
NOM	LOCTITE AA 340
CONDITIONNEMENT	Ca 315 ml
DANGEROUS GOODS	No
COMMENTAIRE	-
APPROBATION	-

Description

LOCTITE® AA 340 is a yellow, clear, 1-part, high viscosity, elastomer toughened acrylic elastomer/methacrylate adhesive intended for structural bonding of steel parts. It features at room temperature with the aid of Activator 7851, but attains full strength only when exposed to temperatures above +90°C.

Avantages

Intended for use in applications where the completed assembly is subsequently subjected to a paint bake cycle at temperatures up to +200°C.
Capable of bonding through many commonly used protective wax or oil coatings.
Suitable for bonding structural or sheet steel where some continuous or repeated loading is encountered.

Caractéristiques

Yellow, clear, 1-part, high viscosity, elastomer/ toughened acrylic elastomer/methacrylate adhesive intended for structural bonding of steel parts

PRODUCTKENMERKEN

Merk	LOCTITE
