TYPE	Mastic
DESCRIPTION	MS polymère monocomposant blanc
NOUVEAU NOM	
BRANDING	TEROSON MS 9120
CONDITIONNEMENT	Ca 310 ml
COMMENTAIRE	-
APPROBATION	Santé & Sécurité

Description

TEROSON® MS 9120 is a black, grey or white, solvent- and isocyanate-free silane-modified polymer for seam and joint sealing as well as bonding of plastic parts, e.g. spoilers, in vehicle body repairs. The skin formation time is approximately 30 min. Use any type of professional dispensing tool with a piston for application.

Avantages

Ideal gap filling material
Very good adhesion without primer
Excellent UV resistance and weathering performance
Spot-weldable before cure
Excellent sag resistance
Isocyanate-free and solvent-free

Caractéristiques

Black, grey or white, solvent- and isocyanate-free silane-modified polymer for seam, joint sealing and plastic parts bonding in vehicle body repairs.
