Description

LOCTITE® LB 2200 are gray, viscous valve grinding compound liquid pastes, coarse and fine, based on water soluble synthetic oil and corundum abrasives. Both pastes are supplied in one can with two separate chambers and openings. The coarse paste is used for pre-grinding and the fine paste for finishing.

Avantages

Easy to use
Do not run
Water soluble
Easily rinsed off after use
Can also be used for other grinding tasks

Caractéristiques

Viscous valve grinding compound liquid pastes, coarse and fine, based on water soluble synthetic oil and corundum abrasives.
